Commonwealth of Massachusetts.

OFFICE OF THE SECRETARY, BOSTON, Jan. 9, 1895.

To the Honorable Senate and the House of Representatives.

I have the honor to submit herewith, in compliance with section 204 of the Election Act of 1893, as amended by chapter 200 of the Acts of 1894, a report of the number of assessed polls, the number of registered male and female voters at the date of the last annual state election and city or town elections, and the total number of persons, both male and female, who voted at each such election in every city and town, and in every voting precinct of a city and town, together with the number of votes received by each candidate for a state office at the last annual state election, arranged by cities, towns and districts, as returned to this office.

In further compliance with the law above quoted, I submit the following:—

The Caucus Act of 1894 (chapter 504) is found to be somewhat ambiguous and confusing. I suggest such amendments thereof as will (1) define clearly what parts are intended to apply generally, and what apply only to the city of Boston and such cities and towns as accept the provisions referring specifically to Boston; (2) require cities and towns accepting those specific provisions, under sections 35 and 36 of the act, to give notice of such acceptance to the Secretary of the Commonwealth; (3) remove all doubt as to whether the final clause of section 7, “the polls shall be kept open at least thirty minutes”, implies that all caucus nominations must be made by ballot; and (4) describe specifically what are to be considered as “subsequent additions” to the voting lists which are to be used as check lists at caucuses.

The act of 1894 (chapter 248) relating to statements filed under the act to prevent corrupt practices in elections provides

that the controller of the accounts of county officers shall inspect the duplicate statements which are filed in this office under the provisions of the election act. For the purpose of this inspection it is necessary to transmit these statements to the office of the controller, and after his inspection they must be again placed on file in this office. To avoid this double handling of these returns, I suggest that the duplicate statements be sent from the several cities and towns direct to the controller, who shall, after his inspection, send them to this office for filing.

The question has been raised whether section 49 of the Election Act of 1893, as amended by chapter 271 of the Acts of 1894, requiring that every applicant for registration shall present a certificate from the assessors, or a tax bill or notice from the collector of taxes showing that he has been assessed for a poll tax, is consistent with the 32d article of the amendment to the Constitution, which strikes the payment of a tax from the list of qualifications for voting. A test case has been made and is now before the Supreme Judicial Court.

I suggest that some special provision be made for elections to fill vacancies caused by the death of members elect of the Senate and House of Representatives. As the law stands, at least twenty days must elapse between the date of the issuing of the precept by the President of the Senate or the Speaker of the House, and the day of the election, while in the case of elections in the city of Boston and in cities and towns which have adopted the Boston caucus method, this time is increased by eleven days. Some special provision by which the vacancy could be more speedily filled seems to be desirable.

A few amendments of the Election Act seem necessary to remove ambiguities; particularly as to what constitutes such an absence of a warden, clerk or inspector as will require the services of his deputy (Section 111); whether or not ballot clerks may be employed in canvassing the ballots (Section 115); and whether or not selectmen and wardens may appoint tellers for town elections (Section 116).

I desire to renew certain recommendations heretofore made by me in this report, as follows:—

That nominations to fill vacancies caused by the death, withdrawal or ineligibility of candidates, as provided in sections 80

and 87 of the Election Act of 1893, should be subject to objections in like manner as original nominations, as far as practicable; that such nominations shall be made without unnecessary delay, in order to prevent postponements for the purpose of cutting off opportunity to file objections; and that all certificates of such nominations shall be accompanied by the written acceptance of the candidates nominated.

That the Secretary of the Commonwealth shall not be required to receive and file nomination papers containing more names than the registrars of voters are required by law to certify; that is to say, the number required to make the nomination, with one fifth of such number added thereto.

That counting of ballots while voting is in progress be permitted, under proper regulations, in all cases where it is deemed necessary or advisable so to do in the unanimous judgment of the election officers.

A further amendment of the election act, with reference to the prevention of fraudulent practice in obtaining names to nomination papers, is recommended in the report of the Ballot Law Commission, to which I respectfully refer.

In accordance with their usual practice the Ballot Box Commissioners, consisting of the Secretary of the Commonwealth, the Treasurer and the Auditor, invited all inventors and manufacturers of ballot boxes to submit their boxes to a competitive examination, which was held in the State House early in the fall. The result was the continued approval of the pattern adopted in 1893, with certain improvements by which the weight of the box was greatly reduced and safeguards against fraudulent abstraction of ballots were added. Very little complaint has been made against this pattern of box, but the commissioners propose to continue to receive and examine all inventions of the kind until a perfectly satisfactory box shall have been obtained if possible.

Very respectfully,

WM. M. OLIN,
Secretary.

NUMBER OF ASSESSED POLLS, REGISTERED VOTERS AND PERSONS WHO VOTED AT ELECTIONS.

Apparent inconsistencies in the report may be accounted for, in part, as follows : —

First. The number of assessed male polls includes aliens and other persons who are not qualified to become registered voters.

Second. The number of registered male voters includes persons who are exempt from taxation and therefore are not included in the number of assessed male polls.

Third. Many names of voters on the list at the State election are, by reason of change of residence, erased from the list of voters at municipal elections.

PRECINCT VOTING IN TOWNS AT ANNUAL ELECTIONS.

The provisions of chapter 132, Acts of 1894, providing for precinct voting in towns at annual town elections, have been accepted by the towns of Framingham, Peabody and Weymouth.
